

## Login to CGI Vesa

You can log in to Vesa either via the application link on the municipality's website or by opening CGI

Vesa log in page <https://kristiinankaupunki.cgivesa.fi/login>

When you log in via application link, the user interface language (Finnish, Swedish, English) is selected according to the link you use.

When you log in to CGI Vesa for the first time, you need to select your municipal in the user interface. The municipality you selected will then remain in the browser or mobile temporary data. If the temporary data is cleared, you need to select the municipality again.

After that you have selected the municipality, select "Suomi.fi" and your login will be directed to suomi.fi strong authentication, where after authentication you will be directed to CGI Vesa.

You can authenticate yourself with a certificate card, mobile certificate or bank codes.
